

Community Sustainability Rebate Program Round 1, 2023 - 2024

Overview

The community during the development of Towards Albury 2050 set several community carbon emission targets. These include a reduction in carbon emissions by 50% compared to 2017 by 2030 and net zero emissions by 2040.

The purpose of the CSRP is to provide sustainability rebates for AlburyCity residents and commercial organisations. The program is designed to encourage the Albury community to transition to a zero emission and climate resilient city, with rebates are available under four themes:

- Renewable Resources – (eg. solar systems, solar batteries).
- Electrification – (eg. induction cooking facilities, electric oven, hot water system).
- Reduction of Carbon Emissions – (eg. Electric Vehicle Charger).
- Energy Efficiency – (eg. LED lighting, insulation, pool pumps).

General

* indicates a required field

General Conditions

- The applicant must agree to and have read and understood the program guidelines.
- The applicant must agree to give permission for AlburyCity staff to visit the applicant property to undertake on-site verifications if required.
- The application must be submitted via Council's preferred platform and include all required attachments.
- The applicant should note that each individual product or service has a specific allowable percentage of the total cost.
- The sustainability rebate amount received per financial year cannot exceed the maximum allowed per property.
- Applicants may request preapproval to ensure Council has sufficient funds to administer their rebate.
- New applications for sustainability rebates will not be accepted once funding of the sustainability rebate has been expended. Information will be available on AlburyCity's website.
- The program's funding is subject to Council's annual budget processes and funding is limited.
- The sustainable product must remain on the property and become a fixture if there is a change of tenant or property ownership.
- Minor and low impact works may not require development or construction approval, provided they fully comply with the exempt development standards as set out by the State Environmental Planning Policy (Exempt and Complying Development Codes) 2008.
- It is the applicant's responsibility to be aware of the development or construction approval process. For example, if undertaking plumbing works, plumbing approval may be required. Additional information is available on the AlburyCity website. The applicant is required to acknowledge and agree that works have been completed per exempt development standards or provide evidence of correct approvals.

Declaration

- I understand that if AlburyCity approves a rebate payment, I will be required to accept the conditions of the rebate in accordance with Community Sustainability Rebate Program Guidelines.
- I agree that I have read and understood the Community Sustainability Rebate Program Guidelines.
- I agree to the Community Sustainability Rebate Program guidelines full terms and conditions.
- I consent to AlburyCity undertaking on-site verification at the property; any verification process will be pre-arranged and at a mutually convenient time. AlburyCity staff will have appropriate identification.
- I agree that all necessary approvals have been obtained prior to submitting this application.
- I agree the sustainable product or service was installed or undertaken on or after 1 December 2022 and meets the eligibility criteria per the guidelines.
- I agree that the sustainable product will remain on the property as a fixture if there is any change in tenant or property ownership.
- I agree all sustainable products must be provided and/or installed by licensed professionals as per the manufacturer's guidelines. I have attached evidence of Electrical and/or Plumbing Certificate of Compliance (where applicable).
- I agree to be responsible for all aspects of the product, operation and maintenance.
- I acknowledge and agree that AlburyCity accepts no liability in respect to how the product is installed, operated or maintained.
- I agree that I will safely and effectively operate, manage and maintain the product as a valuable asset to my property.
- I acknowledge and agree that works were completed per exempt development standards or have provided evidence of Development Approval.
- I certify that to the best of my knowledge the statements made in this application are true.
- I consent my information may be shared with other organisations, for the purpose of directly administering the application, assessment, and awarding of the rebate.

I agree to the above: *

- Yes
- No

Applicant Feedback

You are nearing the end of the application process. Before you review your application and click the **SUBMIT** button please take a few moments to provide some feedback.

Please indicate how you found the online application process: *
